Classification & Adaptation Gr. 5-8 Angela Wagner 2007-09-01 Delve deep into ecosystems by classifying the beings that live there. Our resource breaks down the different kinds of animals before studying their different adaptations. Start off by answering the question: what do we classify? Then, break down this classification into kingdom, phylum, class, family, genus, and finally species. Compare the differences between warm-blooded and cold-blooded animals. Create a brochure on your favorite vertebrate before inventing your own invertebrate. Introduce the concept of adaptation and how animals have changed based on their environment. Take this further by conducting a case study on the adaptations of the koala. Finally, explore the concept of evolution and how this idea is backed up by fossil records. Aligned to the Next Generation Science Standards and written to Bloom's Taxonomy and STEAM initiatives, additional hands-on experiments, crossword, word search, comprehension quiz and answer key are also included.

Hot Blooded Lisa Jackson 2015-02-01 A cunning serial killer torments a New Orleans radio host in this thriller series debut by the #1 New York Times bestselling author of *Afraid to Die*. A prostitute lies strangled in a seedy French Quarter hotel room. Miles away, in a rambling plantation house on Lake Ponchartrain, late-night radio host Dr. Samantha Leeds receives a threatening crank call. But who would think to link the two? As more dead bodies turn up, Samantha's ominous caller persists, along with someone claiming to be a woman from her past—who's been dead for years. With Detective Rick Bentz convinced that the serial killer prowling the streets is somebody close to Samantha, she doesn't dare trust anyone. Especially not Ty Wheeler, her seductive new neighbor who seems to know more about her than a stranger should. Somebody has discovered Samantha's darkest secret. Somebody is convinced that lives must be sacrificed to pay for her sins. So far, the victims have been strangers. But as a cold-blooded killer grows bolder, Samantha wonders if she will be the next to die.

In Cold Blood Truman Capote 2013-02-19 Selected by the Modern Library as one of the 100 best nonfiction books of all time From the Modern Library's new set of beautifully repackaged hardcover classics by Truman Capote—also available are *Breakfast at Tiffany's* and *Other Voices, Other Rooms* (in one volume), *Portraits and Observations*, and *The Complete Stories* Truman Capote's masterpiece, *In Cold Blood*, created a sensation when it was first published, serially, in *The New Yorker* in 1965. The intensively researched, atmospheric narrative of the lives of the Clutter family of Holcomb, Kansas, and of the two men, Richard Eugene Hickock and Perry Edward Smith, who brutally killed them on the night of November 15, 1959, is the seminal work of the "new journalism." Perry Smith is one of the great dark characters of American literature, full of contradictory emotions. "I thought he was a very nice gentleman," he says of Herb Clutter. "Soft-spoken. I thought so right up to the moment I cut his throat." Told in chapters that alternate between the

Clutter household and the approach of Smith and Hickock in their black Chevrolet, then between the investigation of the case and the killers' flight, Capote's account is so detailed that the reader comes to feel almost like a participant in the events.
