Or that he could ever be good enough for someone like her. But Linda's down-to-earth nature and unexpected understanding have Ben trying his best to be better, no matter how challenging . . . Linda couldn't be more surprised when Ben turns out to be caring and helpful, despite his rowdy pranks and bad-news friends. And falling in love with him suddenly seems just right. Yamaha FZR 1000 R.M. Clarke 2011-07-01 Introduced to the public by Yamaha at the IFMA motorcycle show in Cologne, Germany, on September 18th 1986, the FZR 1000 Genesis was created to build upon the successful reputation established by its predecessors in the super sport category, the RD 350 and RD 500 models. The FZR 1000 also marked a major change of engine type being used by Yamaha, the company switching to four-stroke power plants for its new generation of high-performance superbikes and ditching the previous two-stroke units. This book contains 28 internal articles that tell the story of the Yamaha FZR 1000 which was introduced in 1986 and became a 'superbike' from the start.

How to Build a Bobber on a Budget Jose de Miguel 2008-02-15 In the old days all a person

needed to build a killer custom motorcycle was a bike, a set of tools, a little know-how, and a creative vision. But with the rise of the high-dollar, haute moteur Gucci choppers, the true custom bike has gotten out of most riders' reach, right? Dead wrong. In this book Jose de Miguel, a custom builder from way back, sets out to prove that those good old days never ended. In the clearest and simplest terms, he shows readers how they can turn odds and ends found around the shop into one-off motorcycle parts--and make a cheap, run-of-the mill custom build into a drop-dead show stopper. Following de Miguel's lead, along with his straightforward illustrations, any resourceful owner with rudimentary mechanical skills, a basic tool kit, and--most importantly--a modicum of imagination can build the bobber of his dreams for less than the price of a new bike.
